

Dear Louisiana NATS Members:

The Louisiana NATS Officers are happy to announce that we have a few spots for research presentations at the Louisiana NATS Conference. This could be a great opportunity for graduate students who wish to add conference presentations to their academic CVs. And, of course, if any of our full members wish to submit a proposal, please email me asap.

If you wish to be considered, please submit a small presentation abstract. Please include the title of your presentation, along with a small 150-300 word summary. You must include other presentation needs (electronics, mics, etc...)

If you wish to offer a small recital to accompany your lecture, you must provide your own pianist/other musician(s). You must include other presentation needs (electronics, mics, etc...)

Thanks,

Johnnie Bankens
